

Teen Space Usage Policy

(Adopted February 2014; revised March 2015; revised June 2017)

The Teen Space located on the 2nd floor mezzanine of the Stickney Forest-View Public Library District is specifically designed for use by middle school and high school students ages 12 to 18. The Teen Space Librarian and Youth Services staff monitor the area to provide assistance and to ensure appropriate access by this age group.

This dedicated area addresses needs and provides resources specifically for these users including PCs with Internet access, a big screen TV with a DVD player, a group study corner and programs.

All activities and programs in the Teen Space are designed solely for this age group; no other patrons or programs will be accommodated in this area. The adjoining conference room is available for use by all ages, but Teen programs will take priority over other program or community usage. Adults wishing to browse and checkout the Teen Collection are welcome to do so, but the study space and equipment is reserved exclusively for teen use. Parents and siblings may be in the space if they are accompanied by a teen between the ages of 12-18.

As this space is an open area and best suited for informal use, advance reservations for separate, private meetings will not be accepted.

The Stickney-Forest View Public Library District is committed to providing an inviting and safe space for teens to engage in individual and group activities. We recognize that the social nature and unique characteristics of this age group require a separate space designed for their needs.

Guidelines

- The Teen Center is open during all regular Library hours.
